

Year 2 Summer Term 2

Holidays – What might we see?

In this unit we will be building upon previous skills of the location of continents and oceans and physical and human aspects of geography. The children will look at the local area of Saltburn and contrast this with an area of Kenya. The children will refine their map skills and study aerial photographs to pick out geographical features.

SCIENCE

The Environment

This unit of work will talk about the challenges we face on Earth today. We will be covering climate change, recycling, renewable energy, endangered animals and being water wise. The children will conduct experiments and use their scientific knowledge to draw conclusions.

ICT

Internet Safety and the use of information technology

This half term we are reinforcing our rules for keeping safe on the internet.

We will also learn how technology is used in our lives.

RE

Places of worship

Where do people of different faith worship?

PSHE

Changing me

Setting realistic targets for the year ahead and working towards achieving them.

English

In this topic the children will be focusing on non-fiction writing. They will research the animals found in coastal areas and use this information to write non-chronological reports. The children will continue to revisit phase 6 phonics and work on their spelling rules to support their writing.

In maths, we will explore time and multiplication and division further. We will move on to a unit of statistics, collecting data and ways of presenting this.

Children need to learn 'by heart' the 2X, 5X and 10X tables.

Art

Colour Chaos.

We will be looking at mixing colour by studying the work of Kandinsky and Mondrian.
